LIBRARIAN'S REPORT

The following report for the year ending January 31, 1930:

Number of books in the Elkins Public Library	2,542
Number loaned during the year	2,275
Accession by purchase	192

Gifts: Webster's New International and New Reference Atlas of the World, Thomas Simpson; From Chauncer to Tennyson, Frances Hobart; New Self Interpreting Bible, 4 Vols., Mrs. Elizabeth (Ham) Massie; two books from T. W. Cleveland; 1 from Mrs. Hines; a picture map of New Hampshire, Mrs. M. G. Frame.

Twenty-three good magazines will be found on the reading tables. Some for tiny tots, others for older children and adults.

The first vacation reading club was held last summer. Eleven children started the contest and three finished. The three who finished received prizes and certificates for good reading. The certificates were signed by Miss Annable, secretary of the Public Library Commission of Concord; the chairman of the Elkins Public Library Trustees and the librarian.

Those who received the certificates were: Dorothy Stewart, Helen Johnson and Donald Sanborn.

Book Week was observed at the library in November. Appropriate exercises were held. After a short talk on books, Mr. Frame presented the children with their certificates.

Many people interested in the library have inquired about the librarian's duties. The following is a list to enlighten those who are still in doubt.

The librarian does all of the janitor work, such as sweeping, dusting, building fires, removing ashes, caring for the chemical toilet, and up to the present month chopped

kindling and shovelled what snow has been shovelled. She is at the library Tuesdays and Saturdays to loan books and keep the library open to the public. Usually spends two more days in cleaning and etc. The salary is \$175 a year or \$14.58 a month. The trustees decide what the pay shall be.

SUPERINTENDENT'S REPORT

To the School Board and Citizens.

This year the remodeling of the Blanchard school house has been completed. It is well lighted and has most satisfactory toilets and the shed is large enough to hold a year's supply of fuel. The installation of a ventilating stove would make it a model building. This addition should not be made until the condition of other buildings has been improved.

Next summer a start should be made on improvements to the Center school house, the plan for which was abandoned two years ago when sudden increase in children at the Blanchard school forced us to attend to that building first.

The Attendance Table for last year shows the highest per cent of attendance since I have been connected with your schools and the number of tardinesses per pupil is the lowest of any year except 1919-20 which it equals, while the number of pupils is the highest of any year except 1924-25. The number of Canterbury children attending high school is the highest since 1922 and next year's attendance may equal the high mark set in 1921.

The School Board's Budget for the coming year provides for a small increase in teacher's salaries, an addition to the amount likely to be required for high school tuition, and takes account of a reduction of \$100.00 in the amount of State Aid.

During the year a new set of maps has been placed in the Center school. Several new sets of text books have been added to our stock.

In general this has been a year of less than the usual friction and more than the usual progress.

Respectfully,

GEORGE W. SUMNER.
